

Post Implementation Evaluation Report

Regional Education & Workforce Access Remote Delivery (REWARD) Project – Commerce

Project Dates: 1/2006 through 6/2010

Project Cost: \$505,934

Project Objectives:

This project had two subprojects:

Subproject #1 – Install nine (9) high definition (HD) videoconferencing units (Chanute, Garden City, Hutchinson, Independence, Kansas City, Leavenworth, Overland Park, Paola and Salina).

Subproject #2 – Install six (6) HD videoconferencing units (Junction City, Kingman, Lawrence, Topeka, Wellington and Wichita.) Subproject #2 was possible with no increase in budget because the budgeted cost of Internet connectivity was more economical than anticipated.

The principal objective of the project was to provide workforce related services for jobseekers, employers and workforce partners, while significantly reducing costs for office space and travel.
