

Post Implementation Evaluation Report

Investigations – Central Message Switch (CMS) Replacement Project

Project Dates: 3/2010 through 3/2012

Project Cost: \$604,418

Kansas Criminal Justice Information System (KCJIS) information is maintained in numerous Kansas databases, other states' criminal justice databases, as well as federal databases which allow Kansas law enforcement and other criminal justice agencies timely access to critical information in order to provide public safety. The CMS is interfaced with these various networks and databases to supply this information. The CMS serves all levels of law enforcement in the State of Kansas, including local, county, state, and federal. Law enforcement gains access to criminal history information, driver information, want and warrant information, stolen property, and much more through the CMS.
