

## **Post Implementation Evaluation Report**

### **Investigation – Kansas DUI Tracking System (Record and Police Impaired Drivers (RAPID) III**

Project Dates: 4/2013 through 1/2016

Project Cost: \$2,996,471

The project implemented a system to improve the ability of the state to accurately charge and prosecute Driving Under the Influence (DUI) offenders. The system leverages existing repositories and resources already provided by the Kansas Criminal Justice Information System (KCJIS) data center to help ensure that DUI offenders are appropriately charged and sentenced. The system provides: 1. Electronic submission of DUI filings and dispositions from courts to the Kansas Bureau of Investigation (KBI) central repository; 2. Courts and prosecutors one-stop access to search across disparate data systems, such as the KBI criminal history and incident/arrest repositories, the Kansas Department of Revenue (KDOR) driver and vehicle data, and the Kansas Department of Transportation (KDOT) crash repository, thereby providing a complete picture of an offender's DUI history; 3. Notification to courts and prosecutors when new information regarding an offender becomes available; 4. Tools for managing data errors and data reporting deficiencies; and 5. Augmentation of the KBI central repository to include additional information needed to support DUI prosecution and sentencing.
