

## **Post Implementation Evaluation Report**

### **APEX – University of Kansas (KU)**

Project Dates: 10/2011 through 11/2012

Project Cost: \$9,390,000

#### Project Objectives:

The HR/Pay System, also known as Human Capital Management (HCM), is a complete information management framework. The foundation for this framework is the system that captures all of the personnel, benefits, payroll, job, position, funding, time and leave data and related transactions. PeopleSoft 9.1 has been selected as the application version. This project was established to upgrade from PeopleSoft HR/Pay 7.6 (University of Kansas-Lawrence) and SA 8.0 SP1 (University of Kansas Medical Center) to HCM version 9.1 which is a web based environment.
