

Post Implementation Evaluation Report

Clinical Research Center Project – University of Kansas Medical Center

Project Dates: 12/10 through 12/11

Project Cost: \$1,487,800

Project Objectives:

A building was remodeled to accommodate the Clinical Trials Department and other research organizations. The objectives were: installation of 3.5 miles of fiber optic cable; extension of KUMC's 10 gigabit Ethernet network; providing 10/100 switched data access to offices and labs; installation of 802.11 wireless technology; and installation of VoIP technology to enable mobility.
